Perry Johnson & Associates, Inc. achieves ISO 27001:2013 Certification

Troy, MI – October 3, 2019 – Perry Johnson & Associates, Inc., the industry leader in Health Information Technology Solutions, today announced that it has received ISO 27001:2013 certification for its Information Security Management System (ISMS).

ISO 27001:2013 is an information security standard published by the International Organization for Standardization (ISO), the world's largest developer of voluntary international standards, and the International Electrotechnical Commission (IEC). Perry Johnson & Associates, Inc.'s certification was issued by A-LIGN, an independent and accredited certification body based in the United States, upon successful completion of the formal audit process.

This certification confirms that Perry Johnson & Associates, Inc. has met rigorous international standards in ensuring several security measures and countermeasures protect their systems from unauthorized access or compromises and IT personnel were found to be conscientious and knowledgeable in best practices. The scope of our ISO/IEC 27001:2013 certification includes:

- All applications within the GEMS Suite including: Dictation, Transcription and Protected Health Information
- Sales, administration, customer support and information technology
- Internal platform including Oracle, Microsoft, Symantec systems
- Data centers at co-locations in Southfield, MI and Grand Rapids, MI

President/CEO, Jeffrey R. Hubbard notes:

“Perry Johnson & Associates, Inc.’s top priority is ensuring the highest level of safety and security, above and beyond HIPAA Compliancy requirements, to protect the providers and patients we serve. With that, we are proud to announce the achievement of the ISO 27001 accreditation and our continued security efforts and improvements will be a direct reflection of our mission.”
